Re: MC2012-26

Commissioner:

We've been in business over thirty years and every year it seems that the USPS is trying to figure out a way to put us out of business. The last thing I remember about my government was that I owned it. i.e. I shouldn't be in competition with myself. The USPS should be trying to figure out ways for me to succeed. Not the other way around. Even the mail carriers are dissatisfied with the way things are being handled and fully understand that the only reason the post office is in "debt" is because of mishandling the pension program.

We are supporting the USPS everyday. We encourage people to ship with the USPS and offer almost every service that the main post office does. We eliminate a lot of "counter deadlocks" and actually help make the customer happy with the service they receive from us when we represent the USPS. Lets help each other stay in business profitably. Stop this "enhanced postal service". Thanks for your attention.

Sincerely,

Dennis Fontaine
